Accelerate to Success Initiative

The Community Colleges in the University of Hawai‘i System have recently redesigned their models for offering developmental courses in English and Math. Beginning Fall 2016, Hawai‘i CC has revised the offerings for developmental reading, writing, and math courses. These changes will most likely impact students currently placed in English and Math courses below the 100 level.

One reason for this redesign is to provide students an opportunity to accelerate through developmental coursework and complete the 100-level English and Math courses within one year (for those students placing in ENG 20R/20W or MATH 24 or higher).

Visit a Counselor or Faculty Advisor to learn more about how these models might impact the progression through English and/or Math courses.

Placement Qualifiers

In addition to the new progression of English and Math courses, placement qualifiers for the 100-level courses have also been approved. For example, students with a minimum High School GPA of 2.6 qualify to take Eng 100 and Eng 102. Students who took the GED Reasoning Through Language Arts test and received a score of 170 or higher are eligible to take Eng 100 and Eng 102.

Students who had a High School GPA of 2.6 with successful completion of Algebra 2 with a “B” or better place directly into Math 103, Intro to College Algebra. Students who took the Smarter Balanced Assessment Test in High School with a score of 3 or 4 place directly into Math 100 or Math 115. A pre-Statistics course (Math 76) has been developed for students who place into Math 24.

Students should meet with a Counselor or Faculty Advisor to determine if one of the placement qualifiers applies.

Learning Communities

Learning Communities, an innovative approach to educational delivery, emphasize integrated, interdisciplinary learning through a wide range of activities including field trips, study groups, book seminars, simulations, videotaping, and projects which enliven the learning environment. In a Learning Community, courses are clustered around a common theme to provide a focus for the semester’s exploration and integration by a team of faculty and students. Each cluster of courses has at least one course which fulfills a core or area requirement.

Learning Communities are designed to introduce students to various academic subjects, to support students in making connections amongst those subjects, to encourage students to apply knowledge gained in the classroom to their daily lives, and to support students’ involvement in learning.

Grading for English and Mathematics Developmental Corequisite Courses

Grading for these courses is Credit/No-Credit (CR/NC). Students who pass the 100-level course will earn credit for the corequisite course regardless of their grade (CR/NC) in the developmental corequisite course.

For the 100-level course, the grading option is A-F and CR/NC. The CR/NC option is only if a student does not intend to use the course (such as Eng 100 or Math 103) to fulfill a graduation or program requirement. Courses used to fulfill graduation and program requirements must be taken for letter grades.

Which English Course Should I Take?

English (Eng) courses cover two different areas: Reading and Writing, and different progressions for native speakers of English and non-native speakers of English (ESL). If you have any questions, see an advisor or counselor.

Placement is required for all Eng courses. Other Hawai‘i CC courses may have Eng prerequisites too, so closely check the prerequisites for each course to see what must be taken before enrolling in that course. For example, Psy 100 requires Eng 21 or ESL 21 or placement in Eng 102; and Eng 22 or (ESL 22G and ESL 22W) or placement in Eng 100.

Also, carefully review the Eng requirements for your major. See your program advisor if you have any questions.

Which Math Course Should I Take?

Mathematics (Math) courses cover two different areas: Vocational and Liberal Arts. If you have any questions, see an advisor or counselor.

Placement is required for all Math courses. Other Hawai‘i CC courses may have Math prerequisites too, so closely check the prerequisites for each course to see what must be taken before enrolling in that course. For example, Chem 100 requires Eng 21 or Eng 22 or (ESL 22G and ESL 22W) or placement in Eng 100 or placement in Eng 102; and Math 22 or placement in Math 26.

Also, carefully review the Math requirements for your major. See your program advisor if you have any questions.
