Hawaii Community College Goals
Established by Admin Team

As a result of the campus survey completed in Fall 2010, the following have been identified as our college goals:

80% of faculty and staff responding to the faculty/staff survey will agree that sufficient training is provided to use classroom, computer, or Laulima technology as a tool to ultimately improve student learning and experience at HawaiiCC.

- Throughout the semester there are training opportunities provided by our campus faculty and staff development committee, UHH, and ITS. Please make the time to take advantage of these training opportunities.
- If there is any technology training you would like to propose, please make your suggestion to the faculty and staff development committee, through the Vice Chancellor of Academic Affairs office, jonishi@hawaii.edu.

80% of faculty and staff responding to the faculty/staff survey will have participated in the annual or comprehensive program review process and will have contributed to carrying out the action plan of the program/unit.

- Every program and unit is required to complete an annual program/unit review as well as a comprehensive review every five years. This review is submitted during the fall semester.
- The entire HawaiiCC Ohana is asked to participate in this process as a way to contribute to wide-spread institutional improvement. Please invite your division/department or unit members to provide input on Program Review. If you don’t know about Program/Unit Review, check with your division/department or unit heads.

80% of faculty and staff responding to the faculty/staff survey will be involved in the development and/or assessment of learning outcomes including analysis of results and a course of action using assessment results.

- Assessment is everyone’s kuleana.
- All courses with the same alpha should have common minimum student learning outcomes.
- All programs should have program learning outcomes.
- All units should have unit outcomes.
- There should be an ongoing, self-reflective dialogue about course/program/unit’s quality and improvement.
- Assessment should be relevant, meaningful for improvement and integrated as simply as possible into the work that we already do.
80% of faculty and staff responding to the faculty/staff survey will perceive communication as timely and transparent and will feel that they have an opportunity to make a significant contribution to the effectiveness of the college.

- Communication is a two way street; please accept the invitation to participate in meetings, to ask questions or communicate with colleagues or administration.
- All administrators maintain an open door policy. All students, faculty, staff, and community are welcome to call upon them.
- The Chancellor will be hosting Wala`au (focus groups) sessions around key “topics” such as Remedial/Development Program initiatives, Achieving the Dream Initiatives, Grant Updates. If you have topics for a Wala`au session, contact the Chancellor’s office; noreeny@hawaii.edu.
- The College Council is an advisory body to the Chancellor consisting of all major constituents of the College. The Council meets monthly and the minutes from these meetings are disseminated through the listserv.
- The College’s Kauhale Newsletter is published monthly and provides information to all faculty/staff.
- Agenda/notes/handouts from division/department chair meetings as well as academic support unit meetings will soon be on the VCAA’s website.
- Administrators are committed to visit the West Hawaii campus at least once a month.
