\*\* The source of these data (UH system Ed Goals) is questionable, since students are not required to respond to the questionnaire and some students will forgo responding when it pops up at the time they register at their MyUH account. A more accurate report could be based on the number of students who are “classified” (declared a major and intending to obtain a degree/certificate) as opposed to those who are “unclassified” (not intending to obtain a degree/certificate). Based on this distinction, 73.6 per cent (2141/2909) of HawCC students were degree/certificate seekers in Fall 08 and 73.3 per cent (2091/2852) were degree /certificate seekers in Spring 09.
