

## 2011 Instructional Program Review Process Improvement Questionnaire

### Instructions:

This short questionnaire was developed specifically to improve our annual instructional program review process here at Hawaii Community College. The results of the questionnaire will be evaluated in order to make incremental improvements in our process from year to year, to better serve the needs of our instructional programs and ultimately enhance the quality of education we provide our students.

**Thank you for taking the time to participate in this important work!**

1. Did you find the annual program review training presentation and materials helpful? If not, what could be done differently to better suit your needs?
2. All program review presentation material, templates, and documentation are made available to you through the Assessment website. Do you find this method of delivery useful? If not, what could be done differently to better suit your needs?
3. This year we provided three separate presentations (two for instruction and one for units) and 3 separate training sessions to better fit your individual needs. Was this helpful and should we continue this practice?
4. Again this year, your annual instructional program review was delivered to you completely on-line. Did you encounter any issues with this form of delivery?
