Category	Description	Area	Vendor	QTY	Cost per	Total Cost	APPROVED	Priority	Who Will Purchase?	Notes	ORS Code	Charge to Account	Status	ETA Date	Issued To	Date Issued	
Student Kits	Student kits for 4th semester spring culinary students (B	CULN-EH		12	666.00	11,987.81	10/23/2020	1	Program	Raw ingredients for students. Also used to create student kits to supplement their lab lessons. ( <a href="#">Email 10/20/20</a> ) This monies will be used to purchase more equipment to properly socially distance each student (We're having classes face to face). We only have a few mixers and misc. tools and in the past the whole class would congregate around those mixers and misc. tools and share those few mixers and misc. tools we have. However due to COVID we cannot have the students congregating, therefore that's the reason for requesting for these equipment/supplies needed for CULN 252 Advance Patisserie lab. ADJUSTMENT by Ken 12/22/2020: Augment budget by \$3,987.81 from line 50.							
Student Kits	CULN-EH Student Ingredient Kits	CULN-EH				7,500.00	10/23/2020	1	Program	Ingredient Kits: \$125.00 per student per month. 12 Students in second year\$1500.00 per month for Spring semester\$1500 X 5 Months Spring Semester (January - May)=\$7,500.00 ( <a href="#">See email from Chef Tori</a> ) This is for ingredient kits for F2F classes. My CULN 252 class is from 3pm-7pm so the cafeteria won't be open or serving food at that time. Ingredient kits are to properly socially distance students in the lab area so each student can safely complete projects. Normally in a regular classroom setting (pre COVID) I have 3-4 Students working on the same recipe as a group but due the circumstances all these students need to do their own recipe on their own in their own space, therefore needing more ingredients to make sure all the students hit their ACF/CULN proficiencies.
